What is the Purpose of the Confidential Financial Statement?

- The annual Confidential Financial Statement (CFS) is a group of financial documents prepared at the end of the fiscal year by all parishes of the Archdiocese of Milwaukee. The CFS provides a uniform report format among the parishes, which is necessary since there is no common accounting software across the Archdiocese.
- The data contained in these reports is used for:
 - Calculation of the archdiocesan assessment,
 - Strategic planning purposes,
 - Proxy determinations, and
 - Other analytical purposes.
- It is confidential in that it is not public record.
- Besides the assessment, the CFS produces a Balance Sheet, P&L, information on restricted funds, and school financial data.

Hello Parish Finance,

Attached is the FY 2024-2025 CFS workbook, signed cover letter, Profit & Loss Statement and June 30, 2025, Balance Sheet for **“Parish Code” – “Parish Name” – “Parish City”**

Questions can be sent to my attention at **“Phone Number”** or **“Email Address”**

Thanks,

“Your Name”

Important information to know prior to filling out the CFS

- The Parish must fill out the CFS with June 30, 2025, financials that have been closed for the fiscal year (All adjusting entries should be made and all bank account reconciled).
 - *Reminder: If your parish school undergoes an audit for School choice, the final CFS cannot be submitted until the audit and adjusting entries from the audit are completed.*
- The Parish should include all departments/classes in the CFS. These include but are not limited to:
 - Sacred Life & Worship
 - Christian Formation
 - School
 - Social Ministry
 - Admin
 - Buildings & Grounds
 - All Affiliated Organizations.
- If possible, the Parish should fill out the CFS by department/ classes. If the Parish does not use departments/ classes, **only** fill out the Admin column. If your Parish has a school, the School department **must** be used.

Important information to know: Chart of Accounts

- If the Parish chart of accounts does not match the Archdiocesan chart of accounts, the Parish will have to map their chart of accounts to the ones on the CFS.
- If the Parish must map their chart of accounts to the CFS, a list of differences should be kept so you can reconcile the internal financials to the CFS after it has been filled out.
- This reconciliation will help you in the future should you need to convert your current chart of accounts to the standard chart for the Archdiocese of Milwaukee.

Table of Contents Tab

The Table of Contents Tab is useful to quickly navigate to every tab in the CFS. Every Tab has a link to get back to the Table of Contents.

General Information	You will need to close the parish books before you begin entering data to the CFS workbook. You will need to print both the Income and Expense (Profit and Loss) Statement and a Balance Sheet created by your accounting software. If your affiliated organizations maintain their own records, you will need the same information from each of them before you begin. If you do not use the standard chart of accounts, you must map your system codes or descriptions to the account codes provided on the data entry worksheet. Local subaccounts must be rolled up into summary accounts. The information that you report on the Confidential Financial Statement must equal the information that you report to the parish.

Data Entry Tab- Parish Information

- Enter in your Parish Code in the yellow highlighted box.
 - When you do, the Parish name, city, county and deanery will automatically be filled out.

Data Entry Tab- Balance Sheet

- Enter in all cash amounts as shown on your Balance Sheet. If you have multiple accounts that map to the same cell, use a formula to add them together. This will help you resolve issues later if your CFS does not match to your internal financials.
- Enter all your balance sheet information into the CFS. When completed the balance sheet on the CFS should match your Internal Financials.
- To ensure your internal financials agree to the CFS it is best practice to print out your balance sheet and highlight each account after it has been entered on the CFS. This will ensure every amount is entered on the balance sheet.

Restricted Reconciliation Tab- Intro

Complete Data Entry Tab first!

- After entering in all your Assets, Liabilities, Income and Expense on the Data Entry tab you can start filling out the Restricted Reconciliation Tab.
 - Make sure that all your **Restricted** activity has been included on the Data Entry Tab.
- The example below shows what the Restricted Reconciliation Tab should generally look like after everything has been entered in on the Data Entry Tab.

	YOUR RESTRICTED ACTIVITY DOES NOT TIE OUT

Restricted Reconciliation Tab – Debt no longer included

- One thing that is different on the 2025 CFS is that Long-Term Debt is no longer included on the Restricted Reconciliation Tab. This is due to the Archdiocese no longer including debt proceeds and payment in the Profit & Loss Statement.
- The Parish should run all debt entirely through the balance sheet. If there is any interest expense only include that in the parishes P&L.

Restricted Reconciliation Tab - Restricted Fund Detail

- Since this is the second year the restricted fund detail is included in the CFS, your parish will be able to copy the ending balances for each of the sub accounts from your 2024 CFS for restricted funds.
- For St. Adelina, in 2024 they had a Scholarship Fund, Endowment Fund, and Building Fund. The ending balances are then copied into the starting balance spot on the 2025 CFS. This is the same process as the main accounts from the previous slide.
- The current year activity is then included in the below rows.

Restricted Reconciliation Tab - Scholarships

- Scholarship column is locked on the 2025 CFS. Only use this column if you have a restricted scholarship fund.
- After adding in beginning balances, go account by account to add Income, Expense, Debt Repayment, Capital Expenditures, Unrealized Gains/ Losses and Final Cash balances for each restricted account.
- Scholarship Cash should be included in account 1010 in restricted on the data entry tab.
- Scholarship Revenue should be included in account 3060 in restricted on the data entry tab.
- Scholarship Expense should be included in account 4660 in restricted on the data entry tab.

Restricted Reconciliation Tab - Endowments

- The second column for sub accounts is for Endowments. If your Parish has two or more endowments, you can change the name of this column and use the additional columns for each endowment.
- Income can come from donations to the principal or from Investment Income from the Endowment.
- Expenses would include any distribution amount towards operations, or any expenditure allowed by the Endowment.
- If a distribution is made, the Parish should record a debit to account 4785 Restricted Fund Expense and a credit to account 3480 Restricted Fund Distribution. This will move the funds from restricted to unrestricted.
- A fund transfer from the Endowment Fund to the General Fund will also need to be made

The Parish must ensure endowment distributions are only from earnings and realized gains. It can never come from principal!

Restricted Reconciliation Tab - Extra Restricted Sub Accounts

- After the Scholarship and Endowment columns, there are sixteen more columns for other restricted accounts. You only need to fill out as many as the Parish has.
- Each column gives you the ability to enter your fund name. Use as many columns as you need. If additional columns are needed, please reach out to the Parish Finance Office
- For each fund enter the name, beginning balance, Income, Expense, Debt Repayment, Capital Expenditures, unrealized gains/ losses and ending Cash balance.
- All differences should be zero after all the amounts have been entered in the sub accounts. In this scenario the Parish only has one additional restricted fund.

Restricted Reconciliation Tab - Completed Version

Restricted Reconciliation Tab - Common Issues Part 1

- If you are getting an error on your Restricted Reconciliation Tab, it is likely for one of the following reasons:
 - In the below image, the amount calculated is higher than the amount reported on the CFS. This is due to either:
 - The CFS Data Entry Tab not having all the restricted assets entered, or
 - The amount calculated on the Restricted Reconciliation Tab is off.

Example: All of sub accounts balance, so it is due to my CFS Balance Sheet not reporting all the restricted assets. I will need to add \$40,000 to the restricted section of the balance sheet.

Restricted & Reconciliation Tab - Common Issues Part 2

- In the example, the “Variance for Endowment & Other Restricted” column has amounts that do not reconcile. The beginning balance and Income are out of balance. Verify ending balances from your 2024 CFS and verify that all your Income and Expenses have been included from your Internal Financials.
- If you are not accounting for each restricted account individually you will find filling out the Restricted Reconciliation Tab of the CFS very difficult. You will need to create a reconciliation to verify the Income, Expense and Cash amount for each of your restricted funds.
- In this example, St Adelina didn’t include \$8,000 in its starting balance and was missing \$20,000 of restricted income.

- The “Explanations” tab will automatically pull the name of the fund and year end balance from the Restricted Reconciliation tab.
- The only thing the parish **must** fill out is the purpose of the fund. The purpose is what the fund is restricted for.

Net Assets Roll Forward Tab

- New on the 2025 CFS is the Net Assets Roll Forward Tab. This tab is designed to help parishes ensure their net assets roll forward from the 2024 CFS to the 2025 CFS.
- This tab will ensure the parish added all the assets, liabilities, income and expense for the parish.
- To Start the parish will need to add the 2024 ending total net asset balance from cell J-37 of the 2024 CFS Balance Sheet Tab.
- Next add the 2024 fixed asset fund balance amount from cell I-34 of the 2024 CFS Balance Sheet Tab

- Once you add in the ending net asset balance and fixed asset fund balance the difference should be zero dollars and zero percent as shown here.
- If the amount is off but less than 1% then it is optional to find the remaining difference. If over 1% the error will say “Net Assets is off by more than 1%”. The steps on the next few slides can be followed to resolve the issue.

#	Steps to take to resolve Net Assets Roll Forward Issues	Parish CFS Amount	Parish Internal Financial Amount	Difference
1	Review the Data Entry Balance Sheet tab and ensure total assets on the CFS (Data Entry Cell P61) matches your internal financials total assets.	\$ 6,885,800	\$ 6,885,800	\$ -
2	Review the Data Entry Balance Sheet and ensure total liabilities on the CFS (Data Entry Cell P95) matches your internal financials total liabilities.	\$ 240,000	\$ 240,000	\$ -
3	Review the Data Entry Balance Sheet and ensure total restricted net assets on the CFS (Data Entry Cell P104) matches your internal financials restricted net assets.	\$ 540,000	\$ 540,000	\$ -
4	Review the Data Entry Balance Sheet and ensure the total unrestricted net assets on the CFS (Data Entry Cell P110) matches your internal financials unrestricted net assets.	\$ 6,105,800	\$ 6,105,800	\$ -
5	Review the Data Entry tab Income Statement and ensure total income on the CFS (Data Entry Cell P184) matches your internal financials total income.	\$ 1,929,500	\$ 1,929,500	\$ -
6	Review the Data Entry tab Income Statement and ensure total expense on the CFS (Data Entry Cell P259) matches your internal financials total expense.	\$ 1,518,500	\$ 1,493,500	\$ 25,000
7	Review the Data Entry tab Income Statement and ensure unrealized gains and losses on the CFS (Data Entry P262 - P263) matches your internal financials.	\$ -		\$ -

- To find the issue St. Adelina Parish followed each step to find the issue. It is best to start from step 1 and work down since the issue could be from any step or multiple at once.
- St. Adelina entered their internal financials' assets, liabilities, restricted net assets, unrestricted net assets, income and expense. Everything tied out except expense which tells them that the issue is to do with all the expenses not being reported.
- If the difference was negative, then the CFS was reporting too many expenses compared to the internal financials.

Net Assets Roll Forward Tab - Off by more than 1% Continued.

8	Review CFS Income Statement to ensure no debt receipts or payments are recorded. All debt (including long-term) should only be recorded on the Balance Sheet.			
9	Was there any revenue or expense posted directly to Equity in the 2024-2025 fiscal year that should have run through the income statement? To find entries made directly to Equity look at the account detail for each equity account and look for deposits or expenses. Fund adjustments won't affect the Net Assets Roll Forward.			
10	If there were no entries directly to equity during the 2024-2025 fiscal year, check to ensure the ending net asset balance for the 2023-2024 fiscal year was correct. You can do that by looking at your internal financials from 2023 and compare it to the 2023 CFS.			
11	If you have gone through all of these steps and there is still a difference please leave a note here if anything out of the ordinary happened during the fiscal year.	Leave Note Below		

- If you go through steps 1-7 and all the internal financials agree to the CFS then there are still a couple reasons why it could be off.
- If there was any debt running through the income statement, any entries directly to equity or if the beginning balance for your net assets were off, these could all be reasons why your Net Assets does not roll forward.
- If you have gone through all the steps, try to leave an explanation if there was anything out of the ordinary that happened in the last fiscal year, and the parish finance office can help resolve the issue.

Depreciation Schedule Tab

- Another new tab on the 2025 CFS is the depreciation schedule tab. This tab should only be used by parishes that depreciate and can be ignored if the parish expenses the capital project in account 4740 on the CFS.
- If your parish just started depreciating, only new projects since the implementation of depreciation would be depreciated through expense. This is since previous projects were expensed fully when first purchased. To adjust the fixed asset balance for previously expensed assets the parish will need to book an adjustment against the fixed asset fund balance.
- To start: Select in the drop-down option if your parish or school already has a fixed asset schedule. If “Yes”, then you can fill out section 1. If you do not have a depreciation schedule, then select the option “No” and fill out section 2’s depreciation schedule.

- The first section is for parishes or schools who already have a depreciation schedule.
- All that is needed is to enter the depreciation amount for the 2024-25 fiscal year based on the fixed asset type and entity.
- The three sections are for the Parish, School and Cemetery.
- The amount will then populate on the Data Entry tab based on the entity the depreciation is entered in.

Depreciation Schedule Tab – Section 2

Depreciation Schedule Tab – Asset Information

- The first four columns is where you will add the asset information. This is important because it tells what asset classification it is and what entity the fixed asset is for.
- The first column is what type of fixed asset it is. Options Include: Land improvements, Buildings, Furniture's & Fixtures, Equipment and Vehicles. This should match the classification of where it is on the Balance Sheet.
- The second column is whether the fixed asset is for the Parish, School or Cemetery. This is important because that is the class the depreciation expense will be added in.
- The third column is the name of the fixed asset. St. Adelina had 4 in the example below.

Fixed Asset	Entity Fixed Asset	Name	Depreciation Method
Buildings	Parish	Parish Roof from 2020	Straight Line
Land Improvements	Parish	New Parking Lot	Straight Line
Buildings	School	School Secure Entrance	Straight Line
Buildings	School	School Replacement Windows First floor	Straight Line

Depreciation Schedule Tab – Historical Cost Information

- The next part of the tab is where the historical cost information is entered.
- Add in the total cost at purchase (total cost it took to place into service) and add in the useful life determined by your capitalization policy.
- Lastly, add in the month and year it was placed into service. The month the asset is placed into service should be the first full month after completion (e.g. If construction ended July 2024, the month the asset was placed into service would be August).

Fixed Asset	Entity Fixed Asset	Name	Depreciation Method	Total Cost at Purchase	Useful Life (Years)	Month Put into service	Year put into Service
Buildings	Parish	Parish Roof from 2020	Straight Line	\$ 250,000	10	June	2020
Land Improvements	Parish	New Parking Lot	Straight Line	\$ 180,000	15	September	2024
Buildings	School	School Secure Entrance	Straight Line	\$ 75,000	5	August	2024
Buildings	School	School Replacement Windows First floor	Straight Line	\$ 202,500	15	June	2019

Depreciation Schedule Tab – Calculation of Depreciation

- When all the information for depreciation is entered it will automatically calculate.

SECTION 2 FOR PARISHES WITHOUT THEIR OWN DEPRECIATION SCHEDULE												
Fixed Asset	Entity Fixed Asset	Name	Depreciation Method	Total Cost at Purchase	Useful Life (Years)	Month Put into service	Year put into Service	Monthly Depreciation	June 30, 2024 Fixed Asset value	FY 2024-2025 Depreciation Amount	June 30 2025 Accumulated Depreciation	June 30, 2025 Fixed Asset value

- The tab will calculate the monthly and annual depreciation for each of your depreciable assets.
- The amount for accumulated depreciation is calculated as of June 30, 2025.
- Lastly, It will also show the value of the fixed asset for the next 40 years if you scroll to the right.

XX-4760	Depreciation Expense			26,000		34,000				0					60,000
---------	----------------------	--	--	--------	--	--------	--	--	--	---	--	--	--	--	--------

- The depreciation expense calculated on this tab will then be added to the data entry tab under either the parish, school or cemetery classes/ departments.

Balance Sheet Tab

- After all the Parishes financials have been entered on the Data Entry tab, the Balance Sheet should be fully populated. This should then match the parishes balance sheet.
- *Note: There may be differences between the parish balance sheet and the CFS balance sheet if the parish does not follow the chart of accounts recommended by the Archdiocese of Milwaukee.*
- Print this tab out for financial council review.

Assessment Tab

- The assessment in FY 2025-26 is 6.0% of gross receipts for the Parish.
- Credits:
 - 10% of long-term debt
 - \$4,166 per student for Parish schools
- These credits reduce the gross receipts amount, which is used to calculate the assessment.

Cover Sheet Tab

- The last tab in the 2025 CFS is the “Cover Sheet” tab. After the Parish has finished filling out every tab, and it is confirmed that the CFS matches the parish’s fiscal year end financials, print out this worksheet.
- The Cover Sheet needs to be signed and dated by:
 - Pastor
 - Both Trustees, and
 - Finance Council Chair

Reminder to type or print the names of those signing the Cover Sheet below the signature lines.

The Pastor, both Trustees and Finance Council Chair will sign off that the Internal Financials match the CFS and that the Unrestricted Assets, Restricted Assets, Net operating Income and Net Income are correct.
